RECIPES TO BRING YOUR FAMILY CLOSER

Brewed Tea

Automatic Brewer Method:

- Place 1 1-gallon size tea bag into brewing basket. Slide filter basket under brewing head.
- Place clean pot under brew basket and start cycle. Brew water must be at 195 degrees F.
- Pour concentrate into a clean, sanitized urn; add fresh, cold water to make one gallon.
- May add ½ cup sugar, honey, lemon, sweetener, and ice. Best if chilled before pouring over ice.

Conventional Brewing Method:

- Place 1 1-gallon size tea bag in a container which can tolerate the 64-ounces of boiling water to be poured over the bag. Cover and allow to steep for 5 to 10 minutes.
- Remove tea bag (do not squeeze) and add 64 ounces of cold water
- Serve in ice-filled glasses. May add sweetener and/or lemon
