You guys tend to focus more on short term effects of tobacco, alcohol, and drug use, such as how it harms your looks or athletic performance. Going over these negative consequences helps you make better choices.

So let's talk about the some more negative consequences that might affect you more quickly:

- Bad breath
- Shortness of breath
- yellow teeth
- smelly clothes
- more colds and coughs
- difficulty keeping up with friends when playing sports
- loss of memory
- loss your friend & family who've not tried bad substances
- empty wallet — cigarettes & tobacco products, alcohol and drugs are very expensive!

What are other things you feel are consequences of smoking, drinking, or drug use?

## **4-H Forestry, Wildlife, & Fisheries Group**

Interested in learning how to fish? With this project group you can learn just that! You can learn about

fish species and habitats; experiment with fishing gear, baits and lures; tie knots, lines and flies; research fishing regulations; and explore other areas of the great outdoors. If you are interested, please call 731-668-8543.
